

Project Design Phase-II

Data Flow Diagram & User Stories

Date	
Team ID	
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	4 Marks

Data Flow Diagram:

The diagram below shows how request data flows through the ServiceNow-Based Employee Laptop Request Application: from employee submission, through duplicate validation and manager approval, to fulfillment and asset assignment.

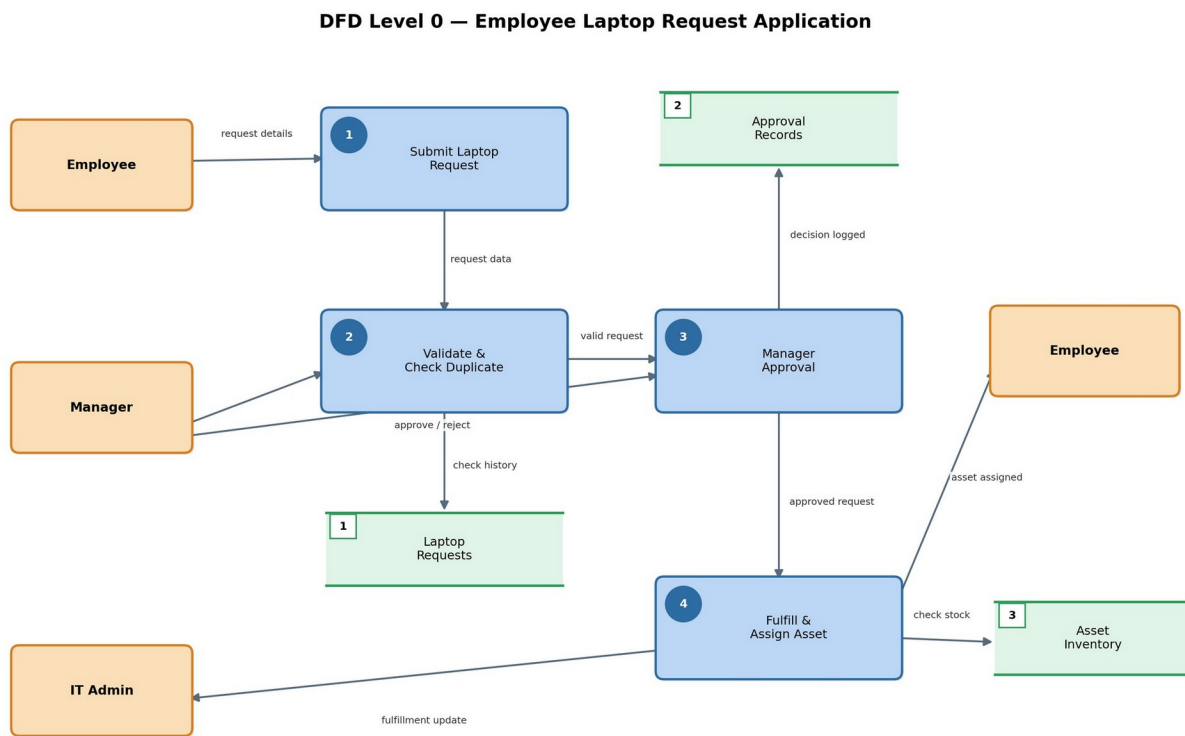

Figure 1 — DFD Level 0 — Employee Laptop Request Application

User Stories:

Use the table below to list all the user stories for the product.

User Type	Functional Req. (Epic)	USN	User Story / Task	Acceptance Criteria	Priority	Release
Employee	Laptop Request Submission	USN-1	As an employee, I can submit a laptop request by selecting a model, entering a business justification, and submitting the form.	Request is created and visible in my request history	High	Sprint-1
Employee	Laptop Request Submission	USN-2	As an employee, I am blocked from submitting a duplicate request if I already have one open.	System shows a warning and prevents the second submission	High	Sprint-1
Employee	Notification	USN-3	As an employee, I receive an email confirmation	Confirmation email arrives with	Medium	Sprint-1

User Type	Functional Req. (Epic)	USN	User Story / Task	Acceptance Criteria	Priority	Release
			once my request is submitted.	request number		
Employee	Fulfillment	USN-4	As an employee, I can track the status of my request (Requested, Approved, Fulfilled).	Status updates are visible on my request record	Medium	Sprint-2
Manager	Manager Approval	USN-5	As a manager, I can view all pending laptop approval requests assigned to me.	Approval list shows only my pending items	High	Sprint-1
Manager	Manager Approval	USN-6	As a manager, I can approve or reject a request with comments.	State changes to Approved/Rejected and comments are saved	High	Sprint-1
IT Admin	Fulfillment	USN-7	As an IT admin, I receive a fulfillment task once a request is approved.	Task appears in my queue with request details	High	Sprint-2
IT Admin	Fulfillment	USN-8	As an IT admin, I can assign an asset from inventory and close the fulfillment task.	Asset record is linked to employee and task is closed	High	Sprint-2
Administrator	System Configuration	USN-9	As an administrator, I can configure the approval workflow and notification templates.	Changes to Flow/notifications take effect without code changes	Low	Sprint-2
